1 TESSSSSSSSSSSST

This package tries a solution of the problem with hyperref, that links to floats points below the caption and not at the beginning of the float. Therefore this package divides the task into two part, the link setting with or automatically at the beginning of a float and the rest in the command. This package tries a solution of the problem with hyperref, that links to floats points below the caption and not at the beginning of a float and the rest in themmand. This package tries a solution of the problem with hyperref, that links to floats points below the caption and not at the beginning of the float. Therefore this package divides the task into two part, the link setting with or automatically at the beginning of a float and the rest in thecommand. This package tries a solution of the problem with hyperref, that links to floats points below the caption and not at the beginning of the float. Therefore this package divides the task into two part, the link setting with rautomatically at the beginning of a float and the rest in themmand. This package tries a solution of the problem with hyperref, that links to floats points below the caption and not at the beginning of the float. Therefore this package divides the task into two part, the link setting with or automatically at the beginning of a float and the rest in thecommand.
